e. Economic and Financial Situation

The contract may be awarded only by an entity that is in an economic and financial situation ensuring the correct implementation of the full scope of the contract, including its timely implementation, and is not in a state of bankruptcy or liquidation, bankruptcy or liquidation proceedings have not been initiated against the Tenderer.

The assessment of the fulfilment of the condition will be made on the basis of the statement submitted by the Offeror (Appendix no. 2 to the offer request).

IX. THE CRITERIA FOR EVALUATING OFFERS:

The contracting authority will evaluate valid tenders on the basis of the following criteria::

	Symbol	Judging criteria	Point weight (0-100) points.
1	C	Net order price (PLN)	100

W the selection of the best offer will be based on the following criteria:

1. Net order price (in PLN) - *for bids made in other currencies, the NBP rate of this currency from the day following the deadline for submitting bids* – 100 points,

The evaluation of offers will be carried out according to the following rules:

The point value of the criterion - the net order price - will be calculated according to the formula:

$$C = (C_{\min} : C_n) \times 100 \text{ points}$$

gdzie:

$C_{\min}$ – lowest net order price among unrejected bids

C_n – the net order price of the estimated bid

C – net order price

The bid price should include all costs that the Purchaser will have to bear in connection with the execution of the contract subject. The net price should include all the costs of the work and the declared warranty period.

The results of the mathematical measures, performed in the evaluation of the bids, are rounded to the second place after the decimal place. If the results of the mathematical measures are obtained in this way for at least two bids, the calculation is recalculated by rounding the results of the math measures to the fourth place after the decimal point. If in this way the score is obtained for at least two offers, the criterion determining the selection of the bid will be the criterion of the net order price.

Bids that meet all the requirements set out in this tender solicitation will be ranked from least favorable to most favorable price. Bids will then be awarded points according to the points award methodology described above. In the bidding process, the Bidder who will score the highest number of points will win. In case of an equal number of points, the Offerer who proposed the most favorable price will win.
